## Preparation Classes

All examination candidates join General English classes on five mornings each week. Special examination preparation classes take place in the afternoons. In the morning classes, you study and practise all aspects of English – reading, writing, listening, speaking, grammar, vocabulary, etc. – in order to improve your general level of English, and so help you pass the exam.

The exam preparation classes (4 afternoons a week) are designed to improve your ability to perform in the exams, therefore the class will in part involve practice at answering the relevant exam questions. However, the lessons are flexible to suit the needs of the students and tackle any particular difficulties of each individual skill and language area. What is more the class sizes are generally small allowing you to have plenty of individual attention and feedback from your teacher.

The course will involve mock speaking tests which will be administered by a different member of the teaching staff. This will give you practice at interacting with different native speakers with different accents.

Your performance in all practice tests will be used to identify areas of weakness which will help the teacher to design subsequent learning exercises.

You will also have lessons in our state-of-the-art digital language lab which allows you to practise your speaking and listening using interactive media sources. We have a variety of software focusing on grammar, vocabulary, pronunciation and all the skills to make your learning more interesting.

The school will do this for you when you send the examination fee, though we may need to ask you more questions about your level before registering you.

Then send it back to us by post as soon as possible, together with 2 passport size photographs with your signature on the back of each, and a photocopy of your ID document or passport (whichever document you have mentioned on the application form).
